				(Group 1) ESports afternoon		

				3 hours	
Tuesday	Arrivals/Departures				

### Notes

1. We will need a syllabus for at least 2 week cohorts, if there are 4 or six week students then the Syllabus will have to be extensive or students will have to switch levels, this hasn't always worked in the past.
2. The (plus) activities are still subject to change.
3. 2 different groups split down the middle by age, everyone gets to participate in all aspects of the course using the English language as a base.
4. 15 students per class.
5. Ages 10 to 15.

### Selling points

1. 20 hours of English language tuition spread across actual lessons, communication/Excursion Preview classes and the project sessions
2. The PLUS part a taste of STEM (3 hours) Esports (1.5 hours) wall climbing/archery (3 hours) Bakery (3 hours) Coding (3 hours) Kayaking/Sailing (3 hours) Veterinary Experience (3 hours) 16.5 extra hours of English interaction in the PLUS part here.
3. 2 full day trips and one half day trip per week
4. Beautiful and most of all extremely safe countryside location.
5. 20 minutes from Brighton
6. Most activities are onsite
